DYNACOAT – Making Quality Affordable!

**How would it be** if you could offer your customers all the car colors in the world from your very own on-site mixing machine?

**How would it be** if all those colors had the quality and consistency you'd expect from the world's largest paint company?

**And how would it be** if that paint company were to support you with point-of-sales promotional material, to promote the Dynacoat brand in your shop?

Let's face it, with all of that on offer you'd have what every paint distributor wants – happy customers and a more profitable paint business.

**Now you can have all of this – thanks to the new Dynacoat paint mixing system from Akzo Nobel.**

A quality paint from a world-leading manufacturer does not command a premium price. Dynacoat is competitively priced to give you exceptional value for money. Dynacoat: making quality affordable.

### Features of Dynacoat Basecoat

- Sprays easily
- Good opacity
- Quick flash off
- Smooth finish
- Easy tinting
- Good color match
- Low number of toners

### Features of Dynacoat 2K Topcoat

- Easy application
- Good opacity
- Good gloss appearance
- Easy to polish
- Easy tinting
- Good color match
- Low number of toners

### Fully proven refinish paint system

The Dynacoat mixing system has been specially developed for paint distributors selling over-the-counter. Originally limited to primers, clears and ancillary products, the Dynacoat international paint brand now includes a quality Basecoat and a direct gloss 2K Topcoat enabling you to offer your customers a complete car refinish paint system. The mixing system is based on established Akzo Nobel technology and already has proven its success with numerous distributors and bodyshops in different parts of the world.

### Outstanding color availability and color accuracy

The Dynacoat mixing machine system enables you to mix thousands and thousands of local and international solid, metallic and pearl car colors. And with Dynacoat the mixing of those colors couldn't be easier. The high quality toners keep tinting efforts to a minimum. And the easy to use Dynacoat ColorMap, Color swatches and Mixit color retrieval software will support you in getting a perfect color match every time. Colors can also be found via our Internet site, giving you on-line access to the international color database.

### Promotional support

As well as packaging Dynacoat in attractive, high quality lithographed cans, Akzo Nobel also provides promotional support to help you increase your sales. Dynacoat point-of-sales promotional material will increase the visibility of the brand in your shop.

### Why the Dynacoat mixing system is the right choice

- Affordable quality paint system from the world's leading paint manufacturer
- Thousands of accurate car colors
- Universal hardeners and thinners
- Minimum number of tinters
- Promotional support for distributors
